# *Star<sup>®</sup> Roses*

1977 All-America  
Award Winner

**FIRST EDITION**

# The New

Dear friends,

Amongst the many rose hybridizers I have known in my lifetime. Georges Delbard of France ranks among the best. Therefore, it pleases me immensely for Star Roses to introduce in America Georges' first All-America Award winning rose, the very lovely First Edition.

A walk with Georges through his test roses is an experience. He is one of the most enthusiastic plant breeders and nurserymen in the world. He speaks no English and I no French but in the language of roses, we communicate. Admiring each and every rose with a keen eye, beaming like a doting father admiring his new-born daughter and yet always looking for that certain something that sets the "best" apart.

A man of sensitivity, his goal in life has been "to improve the land and to procure happiness with flowers." Georges has done both with his All-America Award Winner, First Edition (named in Europe for his young grandson, Arnaud Delbard).

Sincerely,

S.B. Hutton, Sr.  
Chairman of the Board

Georges Delbard, French nurseryman and hybridizer of First Edition.

## Double Delight

 Big, bold, beautiful and striking; this is the Hybrid Tea of Hybrid Teas, and well worthy of every longing glance and double-take it receives. Creamy-white huge blooms are so liberally brushed with bright, rich red that they have the appearance of having been dipped in ruby-red paint. This is the Hybrid Tea to win the blue ribbons at the show table—most blooms are perfect and all are so breathtakingly beautiful that you really can find no fault with them. High-centered, formal blooms, a very strong, "nose-catching" spicy fragrance, an upright, spreading, bushy, good height Hybrid Tea plant clothed with glossy green leaves and you have near perfection. This one is going to be praised and talked about. (Swim & Ellis.) *Plant Pat. App. For.*

## First Edition

(Arnaud Delbard in Europe)

 Perfectly mounded Floribunda plants with wave after wave of unequalled luminous coral color. One of the very few roses that gives an outstanding mass of color and yet has the form to be perfect for arrangements. Our picture on the cover is the form you get on each and every bloom. Delicately pointed buds slowly become striking, fluorescent blooms 2½ inches across. A delightful blending of subtle yellow, orange and red shades. Excellent for any use but especially lovely for mass plantings.

2½ foot plants are perfect mounds and literally blanketed with rich lively color. Each branch is well clothed with medium size, glossy, bright green foliage forming the perfect background for the luminous color. One spray will make a beautiful bouquet and one plant will be magnificent. An outstanding plant, a beauty of a flower and perfect for any use—FIRST EDITION. (Delbard.) *Plant Pat.* 3647.

## Prominent

 An All-America Award Winner for 1977. Yes, and never have we seen anything like this spicy Grandiflora. A definite color breakthrough, such brilliance and yet such a clear orange color that it is unmatched—it seems to vibrate with its intensity. Well formed, medium size buds very slowly become medium size, very showy blooms of excellent form. Each petal forms a sharp point and gives the flowers a distinctive star effect. Strong, tall, easy to grow plants produce an excellent quantity of bloom through the season; and each bloom comes on a handsome stem for cutting. The showy blooms have excellent substance and last an exceptionally long time on the plant and when cut and are perfect for arrangements. Tall, well branched plants produce a continuous show of color. You could almost fill a small vase a day from one plant.

Already a sensation in Europe, PROMINENT will take America by storm. Once you have seen the fiery color, few other roses can begin to compare in performance, bloom production and outstanding color. (Kordes.) *Plant Pat.* 3380.

# Sonia

THE ROSE OF THE SEVENTIES

The very best of that new breed of roses that can be described in so many ways yet no words seem adequate to picture her total beauty. (In fact, even our picture does not do so). Here is the rose you expect only from your florist; in fact, you can buy SONIA from your florist, but we are not exaggerating when we say, "SONIA will give you the same quality blooms in your garden."

Ultra-modern luminous coral beginning as an eye-catching pink suffused with coral and yellow brushed across each petal. Rich and lovely pointed classic buds very slowly roll back becoming 4-inch open blooms that have exceptional life on the plant and when cut. Each petal is large and satiny with an unusual texture and firmness that makes a single bloom or bouquet last a full week.

Beautifully floriferous plants give bouquets of perfect blooms all season. Compact, medium tall, vigorous and covered with excellent rich green foliage. SONIA is a delight. (Meilland.) *Plant Pat. 3095.*

\$4.90 ea.—3 or more, \$4.60 ea.

SONIA

Sonia Meilland, the delightful grandchild of Francis Meilland for whom Sonia (the rose) is named.

## Oregold

Hybrid Tea. If you like yellow roses, you'll love OREGOLD, it is rated as one of the very best. Its real asset is the sparkling gold color that is distinct from all other yellows and doesn't fade. Rich, golden yellow buds are delightfully long and pointed. Open blooms are large (up to 5 inches), fully double, high-centered and sit right up on top of the plant for all to enjoy. The color does soften a bit as the blooms mature but color stays lovely through the life of the flower. A moderate fragrance is the perfect complement to this rich, lively, floriferous yellow Hybrid Tea.

Exceptionally vigorous for a yellow, this free bloomer will often grow to 4 feet and is completely covered with glossy, rich green foliage.

A delight in the garden, but OREGOLD is one yellow that won't stay outdoors, it has the exhibition form to take the blue ribbons at the rose shows. A distinctive new addition to yellow garden roses that will be around for a long time to come.

One of the more vigorous and floriferous yellow Hybrid Teas to come along—perhaps the best one yet.

OREGOLD—the 1975 All-America Winner is well worthy of the award and a winner everywhere. (Tantau.) *Plant Pat. 3415.*

\$5.90 ea.—3 or more, \$5.50 ea.

"SONIA—WOW! SONIA—how do you improve on perfection? Tall, slender, graceful, dignified, unobtrusive, lady-like, she seemed to hold her suspected charms hidden close to herself until in the presence of unspoken admiration she opened up and revealed all her glory. SONIA is what rose growing is all about."

F.T., Massachusetts

OREGOLD

## Mister Lincoln

 Hybrid Tea. Tall, stately and beautiful—absolute perfection. A true red red, very perfumed, bold and showy. This is our very best true red rose, and we believe it is the finest red rose of all time. No other red rose can equal Mister Lincoln.

Lovely, long, pointed, urn shaped buds are exquisitely formed and gracefully roll their velvety petals back from delightful high centers. Big, extravagant six-inch blooms are a deep, bold red, full, very double and very fragrant, even on dull days when fragrance in other roses is not noticeable. Long, straight, strong stems hold each flower erect in the classic Hybrid Tea fashion. Blooms are perfect for cutting to enjoy indoors and Mister Lincoln is outstanding for the Flower Shows.

Vigorous, tall and upright, plants are completely covered with excellent, bright, glossy green foliage. Mister Lincoln has everything—velvety luminescent red, big, double blooms and outstanding perfume. (Swim & Weeks). *Plant Pat. 2370.*

## *Perfume Delight*

 Hybrid Tea. Lovely to look at with a delightful deep, heady fragrance that is second to none—that's Perfume Delight. All the sophistication and beauty of today and yet with the fragrance and charm we all remember so well. The delightful perfume is evident the moment the lovely clear pink petals begin to unfurl from the classic, long, pointed buds. Petals roll back gracefully forming big, double blooms up to 5 inches across with each petal the same glowing, unblemished clear pink that never changes.

Each bloom is held right on top of the medium tall plant so its perfume will touch almost every nose. Rich, olive green foliage forms the perfect background for the eye and "nose-catching" bloom. Imagine having these lovely flowers in your garden or to bring indoors to fill your home with beauty and perfume. (Weeks.) *Plant Pat. 3282.*

### **ROSES ARE SO EASY**

There is no one best way to grow roses; they are wonderfully adaptable and so easy. The secret is simple and very basic. If your soil grows good tomatoes it will grow marvelous roses. Take care when planting your roses—PLANT THEM RIGHT. Follow our free planting instructions. The few extra minutes it takes will be well worthwhile. Water them when it gets very dry and establish a regular spray or dusting program. It only takes a few minutes each week for "success with roses."

## Apollo

 Hybrid Tea. Such a bright, clear sunny yellow and so tall and strong. Apollo is a standout in any garden. Radiant, pointed buds slowly become big, double blooms, up to 4½ inches across. Usually there is a single bloom to the stem and always they are held high on the plant, never hiding in the foliage. The sunshine yellow is a delight all season, with each dazzling bloom a real eye-catcher and the color holds for such a long time.

Strong, tall growing and well branched, Apollo could almost be a Grandiflora. Foliage is large, leathery and very disease resistant, covering the plants well, completely hiding the branches. Great for any use and particularly good for arrangements. Beautiful all season and a plant that is second to none. For an outstanding "rose show" all summer long, it's a masterpiece. (Armstrong.) *Plant Pat. 3322.*

\$4.90 ea.—3 or more, \$4.60 ea.

**STAR®  
GUARANTEE**

All Star Plants in this catalog are guaranteed to grow and perform as they should for the first season after purchase. If they do not, we will replace them or refund the purchase price.

## ARIZONA

## Arizona

 Grandiflora. When we first saw Arizona with its flashy golden copper brilliance, we saw all the things that make Arizona, the state, such a delight—the flaming scarlet sunsets, the blazing noonday sun, all the colors of the spectacular sunrise. As colorful as the Painted Desert, Arizona, the rose, combines all of these shades. Buds are so perfect with satiny petals gently swirling open to 4½ inch flowers of golden copper brushed with shades of scarlet. An alluring tea fragrance is the perfect complement.

Tall, strong, vigorous and well branched. One plant will produce a profusion of decorative bloom all season, and each bloom is produced on a long, straight, sturdy stem for cutting. A back-row rose with neat, balanced growth and dark, semi-glossy, leathery foliage. Resistance to disease and winter hardiness are well above average. Arizona is a beauty and will give years of pleasure, beauty and enjoyment. (Weeks.) *Plant Pat. 3568.*

## Royal Highness

 Hybrid Tea. A regal beauty of flawless perfection. A rose so perfect it's hard to believe it is rugged too. Lustrous, soft, thick, glossy pastel pink petals are satiny smooth. The soft pink becomes just a touch deeper at the center of the bloom, giving each flower a warm glow. Long, pointed, truly exquisite buds open slowly to enormous blooms with a perfect high center. The delightful pastel color holds and holds. Royal Highness is a breathtaking beauty that must be seen to be believed. Perfect form, outstanding color, high-centered blooms and a heavy, enticing tea perfume—all in the same rose.

Each lovely bloom is held aloft on a long, stiff stem, ideal for cutting. A medium tall, upright beauty with tremendous appeal both as a garden rose and as a cut flower. A blue ribbon winner that is perfect for the rose shows. (Swim & Weeks.) *Plant Pat.* 2032.

"Last Saturday, Spartanburg had quite a large rose show. I entered 3 roses: Royal Highness, Mister Lincoln, and Pascali. And, I won 3 first (blue ribbons) and Pascali won 2nd in the whole Show. Out of 250 entries, I couldn't believe it."

## KING'S RANSOM

ROYAL HIGHNESS

## King's Ransom

 Hybrid Tea. Big, lively, golden yellow blooms just bursting with fragrance. Medium long buds are deep and golden with each petal curling back and the big, 5 inch, fully double blooms bursting forth. Each open bloom has a "melting" quality to the color that is distinct from all other yellows. Showy flowers sit right up on top of the plant to catch and reflect every ray of sunlight. Ideal for cutting, with a nice lingering fragrance that will fill a room, and you can be sure this beauty won't stay outdoors.

Medium tall with extra long, strong stems for cutting. Bloom production is at its best in the spring and fall, but keep your shears handy for those "mid-summer blooms" too. Tall, graceful, lovely and highly recommended. (Morey.) *Plant Pat.* 2103.

**\$4.90 ea.**—3 or more, \$4.60 ea.

"Your excellent plants have (for 15 years), spoiled me for purchasing roses from any other source."

M.C., Massachusetts

## Pharaoh (not shown)

Everything a Hybrid Tea should be—red, big, bright, bold and beautiful. Vivid scarlet blooms have a velvety overcast with deep (almost black) red brushed along the petal margins where they are touched by the sun. Lovely, ovoid buds are very dark maroon and open to a glowing scarlet on the upper side of the petals with just a touch of orange gleam for warmth. This big beauty is outstanding until petals fall.

Plants are average height with large, glossy dark foliage. The huge, well formed flowers come freely on good stiff stems and are superb when brought indoors. Some of our friends claim a bloom of Pharaoh lasts longer than any other rose. Outstanding, and a showy delight. (Meiland.) *Plant Pat.* 2859.

 A fascinating Hybrid Tea to watch. The striking blend of ever changing colors is beautiful to watch. At various times and in different kinds of weather, the colors can vary considerably, but they are always dainty and appealing. Very long, tapered, urn shaped buds of light canary yellow, delicately edged camellia-rose, slowly become cream to light canary-yellow, 4½-inch, double blooms with up to 60 firm textured petals. As the blooms mature, the delightful rose color along the petal margins deepens, giving a striking contrast. Flowers are not as yellow as we show, they are more of a delicate cream. Big, double blooms come continuously with a succession of color changes.

Tall, compact plants with very heavy canes. A striking color combination. (Lammerts.) *Plant Pat.* 2687.

CHICAGO PEACE

## Gypsy

Hybrid Tea. Dazzling, fiery red with a touch of deep orange adding a depth of brilliance that is very rare in any rose. Delightful, mysterious and tantalizing. Gypsy is always luminous and never harsh. Hot, humid weather enhances the rich, vivid color. Very dark buds with petals slowly opening to big, 5-inch blooms. Bright and distinctive, the lively red color catches every eye all summer. High, pointed centers become wide, cupped flowers that hold their shape and color extremely well. Blooms usually come one to a long, strong stem—perfect for cutting and long lasting on the bush and when brought indoors.

Tall, husky and rugged with rich, glossy green leaves. Excellent, well deserving of its All-America Award. (Weeks.) *Plant Pat.* 3163.

\$4.90 ea.—3 or more, \$4.60 ea.

## Chicago Peace

Hybrid Tea. A dramatic blending of shimmering pink and canary-yellow with occasional coppery tones. We think this is one of the greatest roses of all time—just grow it and see! Big, solid buds slowly become huge, high centered, very full flowers with 50 to 60 large petals and firm texture. Blooms hold their shape well and last for days. Each bloom comes on a very thick, strong stem.

Chicago Peace is a sport of the famous Peace rose with an even livelier color and more fragrance than its parent. It does have the same extraordinarily vigorous, tough plant with big, leathery leaves.

Resisting practically any rain or wind storm, blooms come in wave after wave of dramatic color throughout the season. Tall, vigorous and very sturdy. A winner everywhere. (Johnston.) *Plant Pat.* 2037.

 Hybrid Tea. A tremendous breakthrough both in the new delicate apricot-buff color and in the size of the magnificent 7-inch flowers. An unequaled new rose of a lovely pastel color that varies with the weather but is always distinctively different. Superb pastel blooms of soft apricot-buff, with a slightly deeper center and a delicate ivory edge.
